EVANGELICAL NOTES.

Sunday Church Services
10.30 a.m.—Morning worship.
11.30 a.m.—Bible School.
7.30 p.m.—Evening Worship.
Thursday
7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
8.00 p.m.—Praise and Prayer Service.
H. E. Roppel, pastor

Rev. H. E. Roppel is attending the annual Ministerial and Christian Workers, North-west District Evangelical Convention, in Medicine Hat, over Sunday, August 6-10 inclusive. In his absence from the local church here, Mr. Frank Honeysett will conduct this week's prayer service Thursday evening, and Mrs. (Rev.) Roppel the preaching services on Sunday, both morning and evening in Didsbury, and at Westcott in the afternoon.

The holiday folks are still coming and going. Mr. Honeysett has just recently returned from a trip to Winnipeg. His wife was delayed there with illness, but is recovering speedily and is also expected home again in a few days.

Mr. and Mrs. H. Reiber are planning a holiday trip to Banff in the near future.

Mrs. Wm. Peck, who has been ill now for some weeks, had a more serious attack on Sunday, but on Monday her friends were pleased to hear she had recovered somewhat.

On account of so many young people being away on their holidays at present, the Senior League of Christian Endeavour of the Evangelical church has decided to cancel its regular meetings during the

Freight Rate in Alberta.

The Province of Alberta will present a united front to the Railway Commission on the question of freight rates when that body commences its general investigation into the question.

At a conference held in Edmonton last Wednesday at the instance of the Alberta Government, at which representatives of the Boards of Trade of Edmonton and Calgary and of other interests were present, the following general points were decided upon for presentation to the Commission. Alberta's counsel in the enquiry will be S. B. Woods, K.C.

(1) That the standard of mileage freight tariff scale should as far as possible be on the same basis all over Canada.

(2) That the distributing town tariffs should continue as at present, namely, 85% of the standard mileage basis in the West.

(3) That the charge for any commodity to Calgary and Edmonton from Eastern Canada should not be greater than that charged from the same points to Vancouver.

(4) That the basis of export rates on grain and flour applicable to Fort William should apply to the Pacific coast.

(5) Reduction in coal rates to develop markets east and west.

(6) Adjustment of export rates via both seaboards in order to develop further markets for the primary products of Alberta and for necessary reductions in import rates to meet the requirements of the Province.

(7) Adjustment of class rates on the shorter C.N.R. Mileage.

(8) Adjustment of rates as between distributing centres.

The matter of details in regard to equalization of rates generally and the securing of commodity rates suitable to the needs was left in the hands of a small committee consisting of the chairman, Mr. J. H. Hanna, Secretary Calgary Board of Trade; A. Chard, Supervisor of Traffic for the Alberta Government, and Mr. S. B. Woods, Counsel for the Province of Alberta.

A thorough discussion of the many points at issue took place and an amicable solution reached by the conference in all cases. All interested expressed themselves as well pleased with the results of the meeting.

month of August. But weekly meetings and full work will again be resumed, beginning with the first Sunday in September.

Messrs. Robert and Otto Mueller, in company with the former's family, all from Ghost Pine Creek, Alta., were recent visitors here in town at the home of their mother, Mrs. Marie Mueller, to join with other members of the family in celebrating the latter's 70th birthday, on Friday, July 31st. Many compliments are due Mrs. Mueller as one of the pioneer settlers of this district. Congratulations and many returns of the occasion!

A very pleasant evening was recently spent at the home of Mr. and Mrs. Jess Tuggle, where the latter entertained her S.S. class of the Westcott Evangelical church. About forty young people were present. A well prepared program of speeches, recitations, vocal and instrumental music was rendered, after which a dainty and luxurious lunch was served by the hostess and everybody went home rejoicing.

A good newspaper contains plenty of two kinds of news: one variety tells about the day's happenings to people near and far; the other deals with news about things to wear, eat and enjoy. Read the advertisements.

Westcott and Clovermount.

Westcott and Clovermount crops are looking fine, but could stand moisture.

Mrs. C. F. Rennie's cousin from Ontario is paying him a visit.

Misses Elva Fisher and Dorothy Metzgar were very successful in passing their departmental exams.

Mrs. Harry O. Levagood spent a few days in Calgary last week.

Mr. W. C. McFarland is spending his holidays in B. C.

Mr. and Mrs. Harry Brown and family and Mr. and Mrs. C. C. Rinehart returned from their trip and report a splendid time and beautiful scenery.

The W. C. T. U. parlor meeting which was recently held at the home of Mr. and Mrs. C. F. Rennie's, was a great success. Some very good talks were given, and splendid music and reciting.

Mr. and Mrs. Fred Snyder and family spent a few days at Craigville with their daughter.

Miss Beatrice Spreeman is visiting her sister Mrs. Garden Weber.

Olof Sande is back again. He says, "There's no place like Alberta."

Master Bruce Wilson of Calgary is spending his holiday with Master Harold Brown.

Mr. and Mrs. Ira Levagood and family, Mr. and Mrs. Harry Levagood and family, Mr. and Mrs. I. H. Levagood and Thelma, Mr. and Mrs. H. D. Brown and family, Mr. and Mrs. G. F. Fleg and Harold, and the Peron, Annie Snyder, Harry Garry, Harry J. Steckly, Bruce Wilson, all motored to Sylvan lake on Sunday. The day was very nice for bathing and boating. Everyone seemed to enjoy themselves.

Manitoba Pool Expenses is 3-5 cent per Bushel.

The total office and administrative expenses of the Manitoba wheat pool. President C. H. Burnell referred to the difficulties overcome during the year, and the splendid support received from banking and financial institutions. In giving the report of the directors, he stated that the membership totaled 13,014, with 18,495 contracts. A total of 8,444,000 bushels of wheat were delivered to the pool or 21.12 per cent of the wheat marketed in Manitoba.

The formation of the Manitoba Pool Elevators, Ltd., under special legislation, was referred to in the report, which also stated that the three provincial pools agreed to make full deduction provided for in contracts to establish reserves and build elevators. Secretary Ransom, of Mountain Side, gave the report of the wheat and coarse grain pools. The coarse grain pool objective of 5,000 contracts was reached May 20, the pool being officially opened in June.

Saturday, August 8th, at the Opera House, "Jealous Husbands" with comedy. Wednesday, Aug. 12th, Richard Dick in "Lucky Devil."

L. L. Edwards, formerly of Didsbury, has been named fire insurance department manager and special agent for McCollister & Campbell of Seattle, general agents for the Carolina Insurance Company, to succeed Earl DeVueve, who has entered the independent adjusting field. Mr. Edwards is an experienced fire fieldman, having spent several years travelling the Central Canadian provinces.

Bee-Keepers Organize.

Bee-keepers of Central and Northern Alberta held a gathering in Edmonton the past week, and made preliminary plans for an organization in this part of the province, to affiliate with a province-wide organization. The gathering was addressed by Frank C. Pellatt, editor of the American Bee Journal, of Hamilton, Ill., and by R. M. Newton, President of the Manitoba Bee Keepers' Association. Mr. Pellatt made the prediction that in ten years Alberta would be shipping out honey to the world's markets by the carload. He believed that Alberta had more possibilities in this way than almost any other section of Canada or the United States.

Continuous Electric Service at Olds.

Continuous service after August 30 will be given by the Olds Electric Power Company, which owns and operates the electric power plant at Olds, according to present plans. With the new power-house almost completed the plant will consist of two engines, one of 100 horsepower, driven by a crude oil engine, and the other of 250 horsepower, gas engine. The building is 90 feet long and 32 feet wide and has a basement of 32 by 42 feet.

Mustard is valuable in the diet

Did you know that mustard not only gives more zest and flavor to meats, but also stimulates your digestion? Because it aids assimilation it adds nourishment to foods.

but it must be Keen's

A Hint To Our Towns

Townpeople, says a Western farm paper, are notoriously ready to give advice to the farmers, and, it asks, why should not the farmer who takes pride in his farm and his home give a little good advice to his grocer and garage man and lumber dealer and hardware merchant. It thereupon proceeds, on behalf of its farmer subscribers, to tell the townspeople some home truths.

Trees and flowers, beautiful homes, with attractive surroundings, are, says this paper, to be found in practically every farming district in the West, but the towns and villages are lacking far behind and most of them are becoming uglier and more hideous with the years. Unpainted stores, unattractive shacks in many cases to begin with, ramshackle outbuildings and sheds, down-at-the-heels fences and weedy, neglected gardens—how many of the country towns in the West answer this description?

The word picture sketched by this farm paper is by no means overdrawn. While the cities and farmers by the thousands, have gone in extensively for the planting of trees and the beautifying of the surroundings in which the people pass their lives, very few towns and villages have made any effort to make them attractive. Most of them present the appearance of a group of squatters' huts, occupied by transients, having no intention of remaining permanently and establishing real homes, but expecting to move on. They give the impression of "boom" oil and mining towns where anything is good enough for the time being until the boom bursts and the town dies.

Country roads are frequently better than those town and village streets with their gutters overgrown with grass and weeds, and with backyards and lanes common dumping grounds for refuse and junk of all kinds. In such surroundings it is little wonder that very soon store windows remain unwashed and in a generally unkempt, untidy, dirty condition. A city store which presented the same indications, of course, would drive away rather than invite customers. Yet many town and village merchants wonder why people pass their doors to trade elsewhere.

Complaint is also voiced because of the difficulty of obtaining and retaining the services of qualified help in these smaller communities. But why should any self-respecting, ambitious young man or woman settle down to spend their lives in a town or village where the people lack even sufficient enterprise to paint their buildings, tidy up their premises, and convert their bald prairie streets into avenues of trees, and their private grounds into flower and neat vegetable gardens?

Speaking for the farmers, the paper already quoted says: "A clean, bright, cheerful town certainly makes a better bid for business than a shabby and ugly one, and when everybody has a car the progressive town will draw the trade." Absolutely true! Shakespeare said, "The appearance proclaims to the world its progressiveness or lack of it." A shabby, unpainted, neglected-looking collection of buildings is not apt to impress a prospective buyer or new citizen as being the home of up-to-date merchants where good value for his money can be obtained.

Western towns and villages should also appreciate the fact that the motor car and the rapid extension of systems of good roads is working a revolution in the tourist trade—and a lucrative trade it is. Motor tourists arriving at a neglected looking town quickly pass on, but a town of neat, nicely painted buildings, well-treed streets, trimly kept gardens, and an attractive little square or park, invites a stop. It is in such towns tourists stop for the night and make their purchases; the other places get the go-by.

Travelling across this country, either by train or motor, how often is the remark heard: "I'd hate to live in a town like that." On the other hand, when one of our all too few little garden towns is reached, people are heard to comment on its attractiveness and to say: "Now there is a place I wouldn't mind living in."

Probably the reason why nothing is done to improve the appearance of most places is fear of the cost. But experience has demonstrated over and over again that the cost of planting trees, of laying out a small park, of keeping the town neat, is comparatively small, while the resulting benefits are large, yielding big dividends on the investment, for, after all, these things are practical, dividend-paying investments just as truly as is the provision of fire-fighting equipment. And if the community as a whole improves the appearance of the streets and parks up, such action becomes infectious and very quickly individual citizens put their private grounds and buildings into shape.

Certainly there is a grand opportunity open to a few public-spirited men and women in most of our Western towns and villages to render real community service by inaugurating Town Beautiful crusades.

The first steamship to cross the Pacific sailed from San Francisco in 1867. The United States dead letter office received 21,000,000 letters last year which had incorrect addresses.

KING OSCAR SARDINES

English Teachers Visit Canada

His Majesty Conveys Message to Departing Pedagogues

The party of 100 school teachers from Britain who are visiting Canada, received the following message from His Majesty the King before their departure:

"His Majesty congratulates the league upon the happy conception of the undertaking which will give opportunities to study the educational system in Canada, and to gain an insight into her history, development and general resources. The King feels sure that the results of this experience will be fraught with good and far-reaching effects, not only on the teachers themselves but also on those who will in the future come under their influence and instruction and upon the relations between the Motherland and the great Dominion.

"From his recollections of Canada and her warm-hearted people, His Majesty can assure the teachers of the very hearty welcome which they will receive and wishes them God-speed and an enjoyable stay in that vast and beautiful country."

The message was received with enthusiasm by the teachers aboard the Empress of Scotland, on which they sailed for Canada.

Subdues Sore Throat In a Short Time

When a severe cold grips your throat, when it makes you gag and cough—that's the time you ought to apply good old "Nerviline." This wonderful liniment sinks right in, penetrates to the very core of the affected region. You get a truly wonderful effect from Nerviline, and for sore throat, tight chests and bad colds nothing else will act the same as Nerviline. Five times stronger than other liniments, full of pain-subduing power, Nerviline is a necessity in every home. Get a 35c bottle today.

Vancouver A Busy Port

Remarkable Strides Made in the Past Five Years

Forty-two regular steamship lines are now operating out of the port of Vancouver, the gross tonnage for last year being 11,135,118, which is over a million tons in excess of the 1923 figures. Remarkable strides have been made by this port during the past five years, and Vancouver is now rated as one of the leading ports on the Pacific.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Homestead Entries

Decline in homestead entries as the settlement of the west proceeds is interesting to contemplate. In 1905-06 and 1910-11, the two largest years in history, Saskatchewan accommodated 27,692 and 25,227 homesteaders respectively. In 1921, 2,729 homesteaders filed on Saskatchewan lands.

Mothers Value this Oil.—Mothers who know how suddenly a group may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Clay Products Production

Total Value of Production Last Year Was Close to Six Million Dollars

Including "brick" of all kinds valued at close to six million dollars, the production of clay products in Canadian plants from domestic and imported clays reached a value of \$11,071,429 in 1921, according to a preliminary report of the bureau of statistics. There were 219 plants in operation last year, representing a capital investment of \$31,716,355, and which provided employment for 4,312 employees, to whom salaries and wages totalling \$4,611,279 were paid.

Fastest Mail in the World

Chicago-New York Night Air Mail Gives Wonderful Service

To Chicago and back in forty-two hours, which is exactly what the night air mail means to correspondents between the two cities. It is hailed by Lester B. Gardner, editor of Aviation, in a congratulatory dispatch to Postmaster General New as "the fastest mail service in the world."

Actually the letter which Mr. Gardner started for Chicago at five p.m. Wednesday and received on its return at eleven a.m. Friday was in the air only sixteen hours of the total elapsed time. So it is possible to bring about, ultimately, when the service is expanded to day and night, actual intercommunication between the two cities in a single day.

Signs of Prosperity
No Business Failures Recorded in Northern Saskatchewan in June

In the whole of northern Saskatchewan not one business failure was recorded during the month of June, according to J. C. Bell, clerk of the bankruptcies district number two, comprising the judicial districts of Kindersley, Kerbert, Wilkie, Battleford, Prince Albert, Edmonton, Weyburn, Wynyard and Saskatoon. In the half-year ending June 30 bankruptcies were less than half those registered during the first six months of 1921.

Complete in itself, Mother Graves' Worm Extirminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

It is a fine thing to teach Christianity to primitive peoples. Christianity should be preserved somewhere.

Minard's Liniment for Burns
A Thrifty Lover.

"Why do you want your love letters returned?" asked the girl who had broken the engagement. "Are you afraid that I'll sue you in court?" "No," signed the young man, "but I paid quite a bit to have those letters written by an expert, and I may use them again some day."—American Legion Weekly.

BRITISH NAVAL PROGRAM HAS PASSED HOUSE

London.—The House of Commons has put its stamp of approval on the government's cruiser building programme after the Liberals and Laborites had sought to have the appropriations for new warships reduced, on the ground that there was no naval war in sight, and, therefore, there was no need to burden the already heavily taxed country to additional expenditure of £58,000,000.

Ramsay MacDonald, former Labor premier, moved a reduction of the shipbuilding vote, but the house rejected his proposal by a vote of 276 to 140.

There was a great deal of talk about potential trouble in the Pacific, but Winston Churchill, chancellor of the exchequer, and the other government spokesmen steered clear of this subject in their contributions to the debate.

The chancellor, in his official statement respecting the new cruiser building programme, said there was only one menace—that the fleet was wearing out.

Mr. Churchill took occasion to repeat one of his most persistent remarks, that, Britain having immensely modified her whole historic position by agreeing to have a navy of the same size of that of another country, intended to maintain her sea forces not inferior to those of any country in the world.

Several speakers with no government portfolios to incline them to vagueness and generalities had much to say about possible trouble between the United States and Japan, and also about the tendency of the French to increase their submarine strength.

Press Delegates Have Left For Australia

Old Country Party Will Return Through Suez Canal

More than 50 delegates from Canada and Great Britain to the Imperial Press Conference in Melbourne, September 29 and 30, embarked here on the liner Aorangi for Australia, July 29. The Old Country party, headed by Viscount and Viscountess Burnham, plans to return through the Suez Canal, thus completing a voyage around the world. It will be nearly Christmas when the majority of the party reach England. The sailing date from Fremantle is November 3. The Canadian party, for the most part, will return by way of Vancouver in October.

Annual Golden Rule Dinner

Paris.—Edouard Herriot, former French premier, has accepted the invitation of the Near East Relief to its annual golden rule dinner in New York, Sept. 29, according to an announcement by the organization. Herriot has been closely connected with the organization's work for several years and for two years has been chairman of the French observance of Golden Rule Sunday.

Rebuild Minaki Inn

Winnipeg.—Minaki Inn, one of the Canadian National Railways' summer hotels, which was destroyed by fire last month, will be rebuilt on the bungalow style, similar to Jasper Park Lodge. Announcement to this effect was made following a conference of system officials with Sir Henry Thornton, who states that plans will be developed immediately for the erection of the new inn.

First Divorce In Far North

Edmonton.—His Honor Judge Dubuc, acting as stipendiary magistrate for the Northwest Territories, who returned to the city July 28 from Fort Smith, has granted the first divorce ever given in the Far North.

May Teach Evolution

Atlanta, Ga.—An amendment designed to prohibit the teaching of evolution in the common schools of Georgia was voted down overwhelmingly in the State House of Representatives.

In a thunderstorm at Atmarin, Spain, recently, lightning encircled an altar in a church without damaging it.

W. N. U. 1588

Welcome Mount Logan Climbers

Conquerors of Canada's Highest Peak Return to Vancouver

Vancouver.—Bronzed by the glare of the ice peaks of Mount Logan and lean as greyhounds from the hardships of their successful scaling of Canada's most formidable peak, Captain A. H. McCarthy, of Wilbur, B.C., leader of the expedition, Lieut.-Col. W. W. Foster, D.S.O., of Vancouver, H. F. Lambert, of Ottawa, and Henry Hall, Jr., of Boston, returned to Vancouver by boat from Victoria. They received from their friends and admirers a memorable welcome.

Except for Mr. Lambert, none of the mountaineers displays any physical evidences of hardships. Mr. Lambert, owing to the frost-bitten feet, arrived with his feet still encased in moccasins. He is still under treatment.

Col. Foster, the local member of the expedition, declared "there is nothing more to be said about our trip than has been written already."

Declares Wheat Pool Success

Could Not Expect More For First Year Says Hon. Doherty

Regina.—"The Saskatchewan Wheat Pool met with all the success it could reasonably expect for its first year of operation," stated Hon. Manning W. Doherty, M.L.A., for East Kent, Ontario, former minister of agriculture in the Drury Government who assisted in the organization of the pool here two years ago and who was in town for the big rally of the Saskatchewan Wheat Producers' Association at the Stadium in the exhibition grounds. "The salvation of agriculture," declared Mr. Doherty, "depends on the successful operation and development of commodity marketing and associations of producers."

Dealing with the prospects of the crop this year, the former Ontario minister said that the people of the east were rejoicing in the reports coming through to the effect that the success of the crops now was practically assured.

Refunding Of Loans

Government Must Finance to Extent of \$165,000,000 This Year

Ottawa.—Hon. James A. Robb, acting minister of finance, who recently returned from a holiday, is turning his attention to the financing of loans maturing during the latter part of the year. Financing to the extent of \$165,000,000 will be necessary this year. As announced some days ago, the first maturing obligation, amounting to five million pounds sterling, on August 12, will be met with cash. On the 15th of the following month, treasury bills to the amount of \$90,000,000 fall due, and on the first of November, treasury notes to the amount of \$8,000,000 mature. The first war loan of 1915, payable in ten years, falls due on December 1. The amount is \$12,015,500.

Mr. Robb has gone to Toronto, and it is understood he will discuss the question of refunding some of these loans with financial advisers.

More Farmers For Alberta

One Hundred Young Britishers Coming Over This Fall

Edmonton, Alta.—Banks Amery, counsel for the overseas settlement board, and himself a member of the board, passed through Edmonton on his way to the coast and thence to Australia, and between trains, Hon. Geo. Hoadley talked over with him the chances for further British immigration to Alberta this year.

There will be 100 more young Britishers coming over this fall, said Mr. Amery, and applications are now being received at the board's offices in London.

Four Vacancies to Fill

Ottawa.—The resignation of Hon. J. B. M. Baxter, as member of Saint John, necessitated by his becoming leader of the New Brunswick Conservative party, creates the fourth vacancy in the House of Commons. The other seats vacant are Compton, Quebec, held by a Liberal; East Hastings, by a Conservative; and west Middlesex, by a Progressive. If there is not a general election, by-elections in these constituencies will inevitably be necessary.

PROPOSAL TO TAX RAILWAYS ON A MILEAGE BASIS

Winnipeg.—Suggesting that the Manitoba Government consider adoption of a policy of taxing railways on a mileage basis instead of gross earnings, Sir Henry Thornton, president of the Canadian National Railways, Major G. M. Bell, deputy minister of railways, and M. Gardiner, member of the Canadian National board, conferred with Premier Bracken here.

Premier Bracken believes the proposed scheme inequitable, on the ground that Manitoba, with small mileage and big business, would suffer at the expense of provinces where mileage is great and business small. The railway officials, it was stated, plan to submit the proposal to their provincial governments on their trip west, and confer with Premier Bracken on their return journey.

Cost More To Harvest Crop

More Binder Twine Will Be Necessary For Heavy Straw

Winnipeg.—It will cost Canadian farmers one-fourth more to harvest their crops this year as compared with normal seasons. The differences will be accounted for by the proportionately heavy straw. This applies to the twenty million acres of wheat as well as ten million of oats and three million acres of barley, rye and flax. It will be paid out to 60,000 harvesters and binder twine manufacturers but the difference in freight rates over other years will favor the producer by some five to six cents per bushel, more than enough to offset the loss in the other direction.

Official and unofficial estimates of total yield from half a billion of wheat to three hundred and fifty million bushels. Heat, moisture, rust and parasites must be reckoned with, but the general harvest is almost in sight. Those who must buy grain are inclined to over-estimate the yield and the producer and his organizations invariably take the pessimistic angle. This is the history of the grain industry and is not confined to western Canada.

Prepares For Prince's Visit

Buenos Aires.—The senate has voted an appropriation of 400,000 pesos (about \$160,000) to entertain the Prince of Wales during his coming visit to Argentina. British subjects in Argentina are preparing numerous festivities in honor of the Prince. His picture is making its appearance everywhere.

Federal Election Speculation

No Announcement Is Expected For Some Days Yet

Ottawa.—It is now stated here on good authority that there will be no more meetings of cabinet until after the New Brunswick election on August 10. In that case it is improbable that there will be any announcement in regard to the holding of an election this autumn, for a couple of weeks. It has been taken for granted that the government will await the New Brunswick result before deciding whether or not to go to the country this autumn. If it should prove favorable to the government now in power, it will be a factor in determining the federal premier to make his appeal. If it should be unfavorable, it will be an added argument for those who are counselling delay. For the present, apparently the question of holding an election before the snow flies must remain unchanged.

New Grain Act

Revised Act With New Regulations Has Now Come Into Operation

Ottawa.—The Canada Grain Act as revised at the last session of parliament became effective August 1.

The order-in-council authorizing the application of the new regulations has been passed and the official proclamation will be made in The Canada Gazette this week.

The new Grain Act was one of the most important measures before parliament last session and a special committee gave several weeks to its consideration. The amendments to the old act were chiefly respecting the operation of elevators, the weighing and grading of grain. All terminal elevators under the present act can be put under the control of a commission if the government so orders, though such action is regarded as unlikely.

Not Coming To States

Duke of York Is Not Expected Next Year

London.—It is understood that while the Duke of York, younger brother of the Prince of Wales, has accepted the honorary presidency of the World Forum of Freedom at Yorktown, Va., he is not expected to go to Yorktown next year as New York dispatches have stated he would do. Recently it was announced in New York that the World Forum expected the Duke to visit Yorktown next year. The purpose of the forum is to restore and perpetuate the Yorktown battlefield, where the British commander, Lord Cornwallis, surrendered to the armies fighting for American independence in October, 1781.

TREATY RELATING TO CHINA WILL NOW BE RATIFIED

Washington.—Arrangements are being made at the department of state for the formal exchange of ratifications of the nine-power treaty relating to China, which was signed at the time of the Washington arms conference.

Notification has been received that the necessary documents from Paris showing the French action in ratifying the treaty would reach Washington within the next few days. France was the last of the nine powers to ratify.

The treaty is that providing for a commission to revise Chinese customs, to provide the Chinese Central Government with a five per cent. ad valorem duty on imports. The assembling of this commission is looked to as the first essential step in stabilization of conditions in China, in order to insure adequate protection of foreigners.

Increase In Passport Issues

Unusual Number of Canadians Are Going Abroad This Year

Ottawa.—Canadians are travelling abroad this summer to a greater extent than usual, judging by the number of passports issued. The heaviest movement is always in the months of March, April and May, although the classes that are better to do travel more in July and August. Since the opening of the St. Lawrence season, the passport issue has averaged nearly 3,000 a month. By the end of the year the total will aggregate over 30,000. As the fee has been raised \$5, this becomes a rather substantial source of revenue.

As British subjects coming to Canada do not require passports, repeated efforts have been made to secure the same privilege for Canadians when going only to the British Isles. The Imperial Government, however, takes the stand that identification of all persons landing in that country is necessary, and that no method is less troublesome in the long run than the passport.

Alberta Rates Case

S. B. Woods, K.C., to Represent Province Before Railway Commission

Edmonton.—S. B. Woods, K.C., of Edmonton, has been appointed by the Alberta Government as provincial freight rates counsel, and will represent the province before the railway commission when it holds its investigation into the freight rates question. He will take the Alberta side of the case only, and will not be associated with any other argument before the commission.

Two objectives, in particular, will be sought in connection with this province's effort to get better rates, according to Premier Greenfield. These will be a through rate on coal and grain westward on the same basis as the Crow's Nest tariff. The movement of coal will be emphasized as a matter of national importance, and the commission will be asked to establish a favorable rate that will make it commercially possible.

Invents New War Weapon

Detroit Man Will Give Demonstration On U. S. Battleship

San Francisco, Cal.—Demonstration of a destructive force which he has invented will be carried out on a United States battleship off the coast of California, Dr. Edwin R. Scott, of Detroit, has announced.

Dr. Scott, who is said to have sold the French Government the "killalite" artillery shell during the world war, calls his new munition the "death stroke." He claims it will kill life which it comes in contact with within a radius of 20 miles. The naval demonstration will take place within two months, the Detroit inventor said.

MacMillan Party "All Well"

Washington.—The steamers Bowdoin and Peary, of the MacMillan Arctic expedition, left South Upernivik, Greenland, July 27, and proceeded north to Melville Bay, according to a radio message dated July 27, received by the National Geographical Society, via Seattle. The message adds "all well."

Japanese Alpinists Climb at Jasper

Headed by Yuko Maki, under secretary of the Japanese Alpine Club, six noted Japanese alpinists have left Jasper Park Lodge, at Jasper, Alberta, for a twenty-five days' trip into the Columbia icefield, one of the least-known portions of the Canadian Rockies. Their trip will take them to the headwaters of the Athabasca and North Saskatchewan Rivers, and an endeavor will be made to climb Mount Alberta, a virgin peak which has so far defied all efforts to conquer its higher slopes. Members of the party state that if the territory lives up to their expectations it will attract hundreds of Japanese alpinists annually. The expedition is elaborately equipped scientifically and the equipment includes still and motion picture cameras and a complete dark room with which pictures will be developed in the field. Three Swiss guides, Heinrich Fuhrer, Hans Kohler and Jean Webber, from Jasper Park Lodge, are accompanying the party and five guides and forty horses from the outfitting stables of Fred Brewster, are being used on the trip. This is the largest party which has left the lodge this year, and the first party of Japanese alpinists to tackle some of the untried fields of the Canadian Rockies. The party is shown ready for the start from the Brewster ranch. Left to right—N. Okabe, M. Hatano, Y. Mita, S. Hashimoto, Y. Maki, Fred Brewster, outfitter; H. Fuhrer, J. Webber, H. Kohler, Swiss guides.

ALBERTA FAIR DATES

The following is a list of the Fairs to be held in this district this year, with the name of the secretary of each:

Alix—Aug. 20, 21; W. L. Pettet.
Bowden—Aug. 20; Mrs. W. A. Hills.
Hays (Lousana)—Aug. 19-20; J. Smith.
Immisfall—Aug. 18-19; Stewart Moore.
Milnerton—Sept. 16; E. W. Meers.
Red Deer—Aug. 13-14-15—Ralph Patterson.
Rimbey—Aug. 14; L. S. Cutler.
Rocky Mountain House—Sept. 2-3; E. Beveridge.
Three Hills—Aug. 13; C. P. McDonnough.
Trochu—Aug. 6-7; C. J. Christie.
Wetaskiwin—Aug. 7-8; C. D. Smith.
Camrose—Aug. 10-12; D. M. Omond.

George Morris Bosworth, Chairman of the Canadian Pacific Steamships, who died in London, England, on the morning of July 26th, from septic poisoning following an operation for appendicitis, was with the company almost from its inception. He was 68 years old when he died, joined the Canadian Pacific Railway in 1882 and was head of the steamship service for nearly seven years. When informed of Mr. Bosworth's death, E. W. Beatty, K.C., chairman and president of the company, stated that in his opinion Mr. Bosworth had had no equal in the country as a manager of railway traffic and added that "the company deeply regrets the passing of another of the old guard, whose ability and effort so largely contributed to the company's success."

Here and There

According to the official records one hundred and thirty whales have been caught by the Victoria, B.C. whaling fleet so far this season. The sperm whale is the most plentiful this year.

It has been estimated that over one hundred and fifty thousand people attended the Calgary Stampede this year. A historical pageant more than five miles long was the opening feature of the jubilee.

With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October, according to figures from the Tourist and Convention Bureau of that city.

It is expected that when Hon. Honore Mercier, Minister of Lands and Forests, returns to Canada, a thorough organization of the aviation branch of the Quebec Lands and Forests Department will take place. It is reported that the Province is to purchase several more hydroplanes, to be used for forestry research work, as well as for combatting forest fires and other work.

Church dignitaries, statesmen and thousands of laymen congregated in ancient Quebec to be present at the wonderfully impressive ceremonies attendant upon the burial of the late Cardinal Begin. The Basilica, which has only recently been reconstructed and opened to the public, presented a scene of colorful beauty and majestic dignity while the profoundly sorrowful services were being recited.

At this year's Cross-country Ride and Pow-wow of the Trail Riders of the Canadian Rockies it is expected that approximately one hundred riders will cover a new trail which extends from Marble Canyon on the Banff-Windermere Road over the Wolverine Plateau and past Lake O'Hara to Hector, while between 250 and 300 are expected at the Pow-wow near the Wapta Bungalow Camp. While out west Field Marshal Earl Haig signed on as a member of the Trail Riders.

On the occasion of the departure from England of a party of one hundred school-teachers on board the "Empress of Scotland" to visit Canada and study educational methods here, His Majesty the King sent the following message to the International Education League: "His Majesty congratulates the League upon the happy conception of the undertaking which will give opportunities to study the educational system in Canada and to gain an insight into her history, development and general resources.

That 69,000 harvesters would be required to handle this year's crop, of which the East would be expected to supply 50,000, was the estimate arrived at last week at a conference of various governments held in the Canadian Pacific offices at Winnipeg. In the meantime the Canadian Pacific Railway has taken all necessary steps to transport the army of harvesters. Their colonist cars and special equipment has been overhauled and the company is now fully prepared for its annual rush of harvesters.

Screening at the Capitol Theatre, Montreal, of the scenes through which the University of Montreal across-Canada trip and the similar journey of the Teachers' Federation of Canada will pass, attracted a large and appreciative audience. The film was a revelation of the beauty of Canadian cities and scenery. The University of Montreal trip will start from that city July 7 and will return July 28. The trip of the Teachers' Federation will commence July 20 and will conclude August 11.

To Ford The Ocean In A Ford

What is it that goes over the sea, under the sea and never touches the sea?"

Appropos of what has gone before and to complicate further the puzzle, another question is suggested, "Is it possible to ford the ocean in a Ford?"

The correct answer to the second query is: "Yes and no."

And now, "Let there be light!" The thing that goes over the sea, under the sea and never touches the sea, is—no, not an egg in a duck's stomach, but, a Ford car in the hold of the S.S. "Melita."

So that, in a way, it is possible to ford the ocean in a Ford, and the principals concerned in the performance of this unusual feat are the family Fox, Mr. and Mrs. C. J. and small daughter, Miss Josephine, the S.S. "Melita" and the Atlantic ocean. The family are from Parkstone, England; the S.S. "Melita" is a Canadian Pacific liner plying between Antwerp, Southampton, Cherbourg and Montreal; and the Atlantic is, of course, where everyone suspects it is.

It seems that the Foxes, after motoring all over the British Isles, not once but several times, since they covered 17,000 miles all told, and we too are all told that Great

(1) Ford car reaching ship on first leg of trip. (2) The crated car being swung aboard ship. (3) Canadian Pacific Liner Melita which carried the car.

Britain and Ireland could be fitted into a small corner of one of our larger provinces, though we find it somewhat difficult to relay that information to a Britisher. Anyway, to get on with the story, this English family conceived the happy idea of conquering other lands in their veteran car, and keeping their triumphs within the Empire, chose the Dominion of Canada as an aid to victory.

Half way across the broad Atlantic the news of the impending landing was wirelessly to Canadian Pacific headquarters in Montreal. That company immediately got in touch with the Ford Motor Company, of Canada, Limited, of Ford, Ontario, and when the ship docked special representatives of the car company were on hand to meet the invaders. A small army of Ford mechanics quickly assembled the car, the customs men were dealt with, a license procured and the 3,000 mile trek

across continent from Montreal to Vancouver begun all in the same morning. Their routing will be north to Ottawa and on to Winnipeg via North Bay. From Winnipeg to the coast they do not anticipate any difficulties, as they are confident that their car will overcome the best and the worst in the way of mountain roads that the Rockies can offer.

Their advance will be considerably facilitated by favors from the car company. Letters to Ford dealers clear across the continent have been given them. Repairs and incidentals will be supplied gratuitously and detailed directions thrust on them. All because they happen to be the first party from across the water to bring their own Ford to tour in. We wonder if we would have the same luck if we landed in England with our Daimler or Sunbeam. We are not certain for nothing is quite certain of course, but we have a fair idea.

JAKE HUGET'S STORE NEWS

There are a few lines in stock to-date that haven't been moving at regular prices. I don't believe in keeping lines over the season if cut prices will move them out, so here goes.

RATINE DRESS GOODS

In plain shades, rose pink, grey, sand and flame, 38 inches wide. Regular 85c for 60c yard.

FANCY TRIPPED RATINE

Light weight and lovely shades, too, 38 inches wide. Reg. 85c. for 65c. yard.

FANCY STRIPPED RATINE

Of a heavier quality and good shades. 40 inches wide. Regular \$1.25 for 95c. yard.

FANCY BROCADED RATINE

Of a cotton and silk mixture, very attractive and makes up beautiful for Fall, 40 inches wide, Regular \$2.00 for \$1.35 yard.

LADIES' READY-TO-WEAR

One only, Ensemble suit, fur cloke collar. Regular \$67.50 for \$45.00, size 28.

One only, navy sport suit, coat has 3 rows of half inch military braid, skirt plain with 2 pockets, size 16. Regular \$27.50 for \$17.50.

One only, grey sport suit, coat is a little longer and embroidered in silk, 2 pockets on skirt, size 18. Regular \$35.00 for \$20.00.

LADIES' DRESSES

I have about 6 in all, silk, wool crepe and navy Tricotene. Prices range \$30.00 and \$22.00. A \$10.00 bill takes your choice.

GINGHAM DRESSES

I have your size. The price is almost nothing.

LADIES' SPRING COATS

Only two, that's all, and both are the new rush shade in size 36 and 38. You will be surprised the price I'm asking for either.

LADIES' CORDED VELVET KIMONAS

Shades in Old Rose, American beauty and Lavender. Regular \$10.50 for \$7.00, it's a gift.

The entire Province of Prince Edward Island and adjacent islands have been leased for oil prospecting purposes to Henry L. Doherty & Company, according to an announcement by the concern. The lease has been taken on option.

Indications are that 1925 will be one of the best tourist seasons ever experienced by Montreal. It is estimated that 750,000 people from all over the continent visited Montreal last year, while this year the number is placed at a million.

Here and There

During July thousands of osteopaths and members of allied professions gathered in Toronto from all parts of the United States and Canada to attend the International Convention of Osteopaths. Several of the visitors toured the country in the interests of osteopathy.

Final figures showing the total live lobster catch on the Nova Scotia coasts, for the season ending June 1st, show a total of 8,585,900 lbs. valued at \$1,364,141, an increase over the 1924 season of 3,687,400 lbs., in quantity and approximately half a million dollars in value.

During his tour of Western Canada over the Canadian Pacific lines, Field Marshal Earl Haig was received on all sides by cheering and enthusiastic crowds. At towns in northern Ontario and elsewhere he shook hands and exchanged reminiscences with local ex-service men, many of whom he recognized.

Having concluded his visit to the Pacific Coast, His Excellency Lord Byng, Governor-General of Canada, has returned East. Before leaving the West His Excellency stayed off for a few days at Banff to meet Earl Haig, and the two famous soldiers spent some time together talking over old times.

Deep gratification is felt in Canadian Pacific Railway circles over the receipt of the following cablegram sent to President E. W. Beatty by His Royal Highness the Prince of Wales:—"Umvuma, South Africa, July 2nd.—Have just heard of Mr. Howard's death. Please convey to relatives my deepest sympathy. (Signed) Edward P." The late Mr. W. B. Howard was twice in charge of the Prince of Wales' train when His Royal Highness travelled over Canadian Pacific lines.

For the second time in the history of the newsprint industry, Canadian output has run ahead of that of the United States. During the month of May Canada produced 130,013 tons of newsprint, as compared with 129,026 tons in the United States. The cumulative production of Canadian mills for the first five months of the current year totals 622,235, which favorably compares with a production of 632,984 in the United States during the same period.

"I Dreamt That I Dwelt in Marble Halls"

(1) The Chateau Lake Louise.

(2) The Patio and Big Telescope.

(3) A section of the Dining-room.

(4) The Lounge leading to the Dining-room.

This new nine-storey hotel, occupying the ground space of an entire city block, was taken over from the contractors two weeks before its opening on June 1, by the Canadian Pacific Railway. It is the new Chateau Lake Louise, built last winter at a cost of two million dollars on the banks of the famous Lake Louise, 6,500 feet up in the Canadian Rockies.

To equip this new hotel and stock it with food for guest occupancy on June 1, 800 beds, 390 bureau, 780 chairs, 390 pieces of upholstery, 390 desks for rooms, with sheets and pillow cases, box bed springs and other equipment to match, had to be transported three and a half miles up a narrow-gauge mountain railway. The perishable food, which had to be stocked in the hotel the day before opening, included 11,000 pounds of turkey, 8,000 pounds of roasting fowl, 18 whole lamb, 12 whole hogs, 1,000 pounds of new cabbage, 40 cases of grape fruit, and 20 cases of fresh spinach. Approximately 7,000 eggs had to be rushed from the Canadian Pacific supply farms at Strathmore, Alberta, and placed in refrigerators.

Of the other foodstuffs, five tons of potatoes, 300 sacks of flour, 20

tons of sugar, 3,000 pounds of butter, one ton of tea and a thousand pounds of fresh coffee had to be placed in the larders.

All told, a special train of eight cars, carrying 350 tons of foodstuffs, was required to open this remarkable edifice. And all of this had to be rushed in at the last moment, for at the opening banquet the new dining rooms were almost full.

A staff of 425 men and women, including three managers, had to be on hand a week before its opening. These employees have a building to themselves equipped with rooms with bath, hot and cold running water, a rotunda and a ballroom.

The new Chateau Lake Louise has 400 rooms with bath, all outside rooms, 210 of them with southern exposure facing the famous lake. There are telegraph and cable offices in the rotunda, and each bed-room contains a phone which can be connected with long distance.

A resident doctor and trained nurse will have offices in the building to look after the health of its guests; and a special dining room has been built for the maids, nurses and younger children of the guests.

Chateau Lake Louise is now said to be the largest and most modern equipped chateau in the world.

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, is an Adaptation of This Story

Synopsis

Barre was a son of Kazan and Gray Wolf, the latter the mother, a full-blooded wolf. Gray Wolf had lost her sight in a fight with a lynx. During the mothering-time she kept Kazan away from their offspring and it was a great day for Barre when he discovered his father. He was then eighteen days old. After that he ventured out from the windfall in which he had been, and finding himself in the sunlight, had his first great adventure.

CHAPTER II.—Continued

In a way Barre sensed this. He was not afraid of the owls. He was not afraid of the strange blood-curdling cries they made in the black spruce-tops. But once fear entered into him, and he scurried back to his mother. It was when one of the winged hunters of the air swooped down on a snowshoe rabbit, and the squealing agony of the doomed creature set his heart thumping like a little hammer. He felt in those cries the nearness of that one ever-present tragedy of the wild—death.

"Papayuchisew started it, and with a single wild yelp Barre went back in a heap, the owl's beak fastened like a red-hot vise in the soft flesh at the end of his nose."

This rabbit was the climax in the first chapter of Barre's education. It was as if Gray Wolf and Kazan had planned it all out, so that he might receive his first instruction in the art of killing.

The fact that Oohoomisew, the big snow-owl, had made her nest in a broken stub not far from the windfall was destined to change the whole course of Barre's life, just as the blinding of Gray Wolf had changed hers, and a man's club had changed Kazan's. The creek ran close past the stub, which had been shriven by

lightning; and this stub stood in a still, dark place in the forest, surrounded by tall, black spruce and enveloped in gloom even in broad day. Many times Barre had gone to the edge of this mysterious bit of forest and had peered in curiously, and with a growing desire.

He was fully three hundred yards from the windfall when he passed Oohoomisew's stub and into a thick growth of young balsams. And there—directly in his path—crouched the monster.

With a space of two feet between them, the pup and the owl eyed each other. In that moment, if Gray Wolf could have seen, she might have said to Barre: "Use your legs—and run!" And Oohoomisew, the old owl, might have said to Papayuchisew: "You little fool—use your wings and fly!"

They did neither—and the fight began.

Papayuchisew started it, and with a single wild yelp Barre went back in a heap, the owl's beak fastened like a red-hot vise in the soft flesh at the

end of his nose. That one yelp of surprise and pain was Barre's first and last cry in the fight. The wolf surged in him; rage and desire to kill possessed him. As Papayuchisew lunged on, he made a curious hissing sound; and as Barre rolled and gnashed his teeth and fought to free himself from that amazing grip on his nose, fierce little snarls rose out of his throat.

For fully a minute Barre had no use of his jaws. Then, by accident, he wedged Papayuchisew in a crotch of a low ground-shrub, and a bit of his nose gave way. He might have run then, but instead of that he was back at the owl like a flash. Flop went Papayuchisew on his back, and Barre buried his needle-like teeth in the bird's breast. It was like trying to bite through a pillow, the feathers were so close and thick. Deeper and deeper Barre sank his fangs, and just as they were beginning to prick the owl's skin, Papayuchisew—jabbing a little blindly with a beak that snapped sharply every time it closed—got him by the ear.

The pain of that hold was excruciating to Barre, and he made a more desperate effort to get his teeth through his enemy's thick armour of feathers. In the struggle they rolled under the low balsams to the edge of the ravine through which ran the creek. Over the steep edge they plunged, and as they rolled and bumped to the bottom, Barre loosened his hold. Papayuchisew hung valiantly on, and when they reached the bottom he still had his grip on Barre's ear.

At this critical point, when the understanding of defeat was forming itself swiftly in Barre's mind, chance saved him. His fangs closed on one of the owl's tender feet. Papayuchisew gave a sudden squeak. The ear was free at last—and with a snarl of triumph Barre gave a vicious tug at Papayuchisew's leg.

In the excitement of battle he had not heard the rushing tumult of the creek close under them, and over the edge of a rock Papayuchisew and he went together, the chill water of the rain-swollen stream muffling a final

snarl and a final hiss of the two little fighters.

CHAPTER III.

To Papayuchisew, after his first mouthful of water, the stream was almost as safe as the air, for he went sailing down it with the lightness of a gull, wondering in his slow-thinking big head why he was moving so swiftly and so pleasantly without any effort of his own.

To Barre it was a different matter. He went down almost like a stone. A mighty roaring filled his ears; it was dark, suffocating, terrible. In the swift current he was twisted over and over. For twenty feet he was under water. Then he rose to the surface and desperately began using his legs.

Suddenly Barre found himself at the edge of a deep, dark pool in which the water lay still as oil, and his heart nearly jumped out of his body when a great, sleek, shining creature sprang out from almost under his nose and landed with a tremendous splash in the centre of it. It was Nekik, the Otter.

The otter had not heard Barre, and in another moment Napanekik, his wife, came sailing out of a patch of gloom, and behind her came three little otters, leaving behind them four shimmering wakes in the oily-looking water. What happened after that made Barre forget for a few minutes that he was lost. Nekik had disappeared under the surface, and now he came up directly under his unsuspecting mate with a force that lifted her half out of the water. Instantly he was gone again, and Napanekik took after him fiercely.

It was about three o'clock in the afternoon, and the sun should still have been well up in the sky. But it was growing darker steadily, and the strangeness and fear of it all lent greater speed to Barre's legs. He stopped every little while to listen, and at one of these intervals he heard a sound that drew from him a responsive and joyous whine. It was a distant howl—a wolf's howl—straight ahead of him. Barre was not thinking of wolves but of Kazan, and he ran through the gloom of the forest until he was winded. Then he stopped and listened a long time. The wolf-howl did not come again. Instead of it there rolled up from the west a deep and thunderous rumble. Through the treetops there flashed a vivid streak of lightning. A moaning whisper of wind rode in advance of the storm; the thunder grew nearer; and a second flash of lightning seemed searching Barre out where he stood shivering under a canopy of great spruce.

At first Barre could hardly stand. His legs were cramped; every bone in his body seemed out of joint; his ear was stiff where the blood had oozed out of it and hardened, and when he tried to wrinkle his wounded nose, he gave a sharp little yelp of pain. If such a thing were possible, he looked even worse than he felt. His hair had dried in muddy patches; he was dirt-stained from end to end; and where yesterday he had been plump and shiny, he was now as thin and wretched as misfortune could possibly make him. And he was hungry. He had never before known what it meant to be really hungry.

(To be continued)

The average maple tree yields enough sap to make from five to ten pounds of maple sugar.

ATHLETES!

Minard's is wonderful for the rub-down. Takes out the stiffness, soothes the bruises.

Russian Peasants Are Superstitious

Believed Property Was Damaged As Penalty For Sins

An amazing trial illustrating the ignorance and superstition of the Russian peasantry recently was held in the Minsk district. In order to increase the income of the village priest and to strengthen his authority over the local peasantry a group of villager parishioners resolved to frighten the peasantry with the pretence of a "real" devil in the village.

A village boy was dressed up to resemble a devil. During the night he went to the village dwellers to frighten them. He was instructed to carry out secretly slight damages to peasants' property. This went on for several months, and the ignorant peasants took it all in earnest, as a penalty for their sins. They flocked to the church, induced the priest to hold special services and organized common prayers and religious processions.

A special commission had to be sent from the district town to investigate the peasants' troubles, which were brought to an end only by the arrest of the "devil." The priest and the local authorities were placed on trial and sentenced to many years imprisonment.

Indian Potentate Likes Golf

Says Low Score Gives Bigger Thrill Than Shooting Elephants

A rose-turbaned potentate with gold sport shoes is going to chase a little white ball with various sticks on cross-country walks through fairways, jungle rough, desert-like sand traps and velvety greens in Canada and the United States.

The Zamindar of Palayampatti and Paladanathan—take it from the passenger list—came to New York on the Aquitania recently.

"You Americans come to India to shoot tigers in our jungles," he remarked. "I come to America to shoot golf on your courses." He added that there was a bigger thrill in making a lower score on the links than in shooting an elephant.

He is going to Chicago and San Francisco and return to New York by way of Canada on the way home, and on the journey he will play his favorite game as much as he can.

Women Equal Men In Driving Test

In Fact They Slightly Surpass Them Says Automobile Association

Scientists and psychologists have determined after a series of tests that women automobile drivers are just as competent, if not more competent than men, the American Automobile Association announced at Washington.

In two tests women were found more competent. They are, first, the speed with which the driver reacts to danger and takes steps to avert it; second, the consistency with which the driver responds in such a situation. In the first test, the experts found it took ten college women 56 seconds to react to danger, and men 20 seconds.

In the second test the variability of ten women was only 17 seconds, while that of ten men was 22 seconds.

Canada's New Headquarters

Building in London Is Famous Union Club Remodelled

A good deal has been published recently about Canada's new headquarters in London, but, perhaps, many do not know that it is the famous Union Club remodelled. This was the club of the great Duke of Wellington, who overthrew Napoleon.

This transformation of an old clubhouse into the offices of a Dominion Government is a unique event. It is a symbol of the blending of old and new which has widened and strengthened the foundations of the British Commonwealth of Nations. Such a conjunction between the haunts of an old club and the busy quarters of a younger government, with its manifold and teeming activities, stimulates the imagination and presents a happy development.

Horse Sense Saves Them

A writer in Forbes Magazine reveals the somewhat surprising fact that there are more horses in this country by several millions than there are motor-driven vehicles. The horse is not seen often, as his horse sense keeps him off city streets.—Detroit Free Press.

The Decline of Pie

Thomas Masson is complaining of the passing of pie as a feature of every good dinner. There are restaurants in New York, he declares, that regard it as a social error for anybody to ask for so plebeian a pastry.—New York Sun.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Tar Sands

Thirteen carloads of tar sands from the Draper leases at Waterways, were shipped east during the months of May and June, for the purpose of experimental road building at various points in the Dominion.

It Testifies for Itself.—Dr. Thomas' Eclectic Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

Passport Officer.—"Where are your proofs that she's your wife?" Henpeck.—"I haven't any, but if you can prove that she's not my wife you're a made man."

About 100 tribes of Indians are supposed to have become extinct since Columbus discovered America.

FOR
"Cholera
Infantum"
MOTHERS SHOULD USE

This valuable preparation has been on the market for over 60 years, and has no equal for offsetting the vomiting, purging and diarrhoea of cholera infantum. Put up only by The T. Millburn Co., Limited, Toronto, Ont.

TIRED OUT ALL THE TIME

Nerves Gave Little Rest

Relieved by Lydia E. Pinkham's Vegetable Compound

Harrowsmith, Ontario.—"I took your medicine before my baby was born and it was a great help to me as I was very poorly until I started to take it. I just felt as though I was tired out all the time and would take weak, fainting spells. My nerves would bother me until I could get little rest, day or night. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to publish this good medicine. I lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will serve to help others."—MRS. HARVEY MILLIGAN, R. R. No. 2, Harrowsmith, Ontario.

In a recent canvass of purchasers of Lydia E. Pinkham's Vegetable Compound over 100,000 replies were received and 98 out of every 100 said they had been helped by its use. This medicine is for sale by all druggists.

WORLD HAPPENINGS BRIEFLY TOLD

The Rockefeller Institute of New York has donated \$120,000 for erection of an institute of physical chemistry in Madrid, Spain.

An anti-luxury society has been formed at Tokyo by students. It hopes to induce the wealthy people of Japan to discontinue habits of luxury.

Consummation of the European security pact, in the opinion of President Coolidge, would lay a broad foundation for further disarmament.

According to the city directory just issued for this year, the population of the Greater Vancouver area is figured out at more than 250,000.

A giant meteorite in Colorado is to be explored for its platinum content. Small quantities of radium recently were isolated from a meteorite.

No further announcement of their cancer work will be made by J. E. Barnard and Dr. W. E. Gye, until autumn. This is stated in London on authority.

Mrs. O. L. McCracken, wife of a ranchman at Helena, Montana, has paid all her daughter's school bills by carving attractive dolls out of the roots of cottonwood trees.

Monday, October 26, is the tentative date for the opening of the 1925 session of the British Columbia Legislature, it is reported. Last fall the session started November 2.

The City of Hull, England, at its weekly civic week meeting, decided to adopt some city in each of the dominions and colonies within the empire toward which it could concentrate on overseas activities, including emigration.

As the result of a lawsuit which has been proceeding for 30 years, the standing timber on a great stretch of forest formerly claimed by the Schoenborn family of Velke Lucky, Bohemia, is to be sold by auction for the benefit of the Bohemian people and the district.

Hon. Charles Stewart, minister of the interior, Hon. R. Dandurand, government leader in the senate, and Hon. P. C. Larkin, Canadian high commissioner in London, will be Canada's representatives at the meeting of the assembly of the League of Nations in Geneva in September.

Printed crepe and white washable silk join forces in making these two attractive frocks. Tabs buttoning from the right onto the left side of the front hold a plain panel in place, on the dress worn by the older girl. The tabs are omitted on the dress worn by the little tot and narrow Valenciennes lace is used to finish the edges of the panel, trim the collar, and cuffs on the short sleeves. Sizes 2, 4, 6 and 8 years. Size 4 years requires 2 yards of 32-inch material. Price 20 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothing of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy. Each copy includes one coupon good for five cents in the purchase of any pattern.

Canada will entertain the International Association of Poultry Husbandry during the early summer of 1927, according to a statement issued by the federal department of agriculture. Last year this association met in Spain, and the Canadian exhibit of poultry there attracted much attention.

Saskatchewan Clays

New Company Incorporated to Manufacture Clay Products

Manufacture of white stoneware, wall tile, floor tile, sanitary ware, terra cotta, dinnerware and hotel china from Saskatchewan clays will be undertaken by the International Clay Products Limited, a new company just incorporated at Regina.

Half a section of clay land near Redlyn and another 320 acres near Kuolys, in the southwest of the province, have been acquired by the company, which is capitalized at \$150,000, of which \$50,000 preferred stock will be offered to the public shortly. The company has acquired the plant formerly operated by the Estevan Brick and Coal Company, including 200 acres of coal property.

Canada's Greatest Need

Immigration Believed To Be the Outstanding Need For the Betterment of Canada

Immigration is Canada's greatest need at the present time and that this opinion is shared by thinking men, who have the welfare of the Dominion at heart, is evidenced in the fact that at the recent Kiwanis international congress, held at St. Paul, attended by some 5,000 business executives, delegates representing every town and city of importance in Canada, endorsed a resolution guaranteeing their earnest support in working out what they believed to be the outstanding need for the betterment of Canada—immigration.

The Text Explained and Illuminated

The second missionary journey, planned, verse 36. "After some days" an indefinite expression denoting a considerable lapse of time—Paul suggested to Barnabas that they revisit the churches founded on their previous journey, and see how they were faring. "He would visit them that he might acquaint himself with their case, and impart unto them such spiritual gifts as were suited to it; as the physician visits his recovering patients that he may prescribe what is proper for the perfecting of his cure, and the preventing of a relapse" (Matthew Henry).

On that previous journey they had suffered much. They had been expelled from Antioch of Pisidia, they had been driven from Iconium with threats of stoning, and at Lystra Paul had been stoned and left for dead outside the city. Now Paul proposes retracing the same route.

"Give us the courage that prevails, The steady faith that never fails" (Van Dyke).

Golden Text: He shall have dominion also from sea to sea, And from the River unto the ends of the earth. Psalm 72:8

Lesson: Acts 15:36 to 16:5. Devotional Reading: Psalm 67.

Many Radio Fans

Radio Receiving Licenses in Canada Are Over 56,000

The number of radio receiving licenses held in Canada at the end of June totalled 56,063, it was learned at the radio branch of the department of marine and fisheries.

Licenses issued to citizens of western provinces were: Manitoba, 4,443; British Columbia, 3,392; Alberta, 3,004; Yukon, 22; and North West Territories, 5.

Asthma Can be Relieved. Its suffering is as needless as it is terrible to endure. After its many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back for good. Ask your druggist; he can supply you.

Universal Gloom In Russia

People Are Poor and Do Not Care What Happens

Gordon Setridge, the London department store man, who has just returned from a tour of Soviet Russia, recording his impressions in the Weekly Dispatch, said:

"I do not consider there is sufficient money in Russia to buy British goods. Nobody in Russia has money to spend. Highest paid Soviet officials receive a salary of only £20 a month, and goods of any value could not find a market among an almost penniless people.

The Russians have reached a stage of universal gloom which is almost incomprehensible to the western mind. They are meticulously polite to strangers, and although everybody is very poor, nobody will accept a tip not even a waiter. I offered one to a train official, and with dignity he refused it. A Russian told me it was Russian pride, and I cannot help admiring them for it.

Russia, he said, is a land where nothing matters. Nobody cares much what happens.

Reasonable

"You want a divorce from your husband. On what grounds?"

"Incompatibility! I want a divorce and he doesn't!"

A Wizard

Kane: "Briggs must be an artist."

Brewster: "How's that?"

Kane: "He knows the names for all the colors of his wife's silk stockings."

Passed Through Town

Bearing His Name

Field Marshal Pleased That B.C. Town Was Named "Haig"

The Haig special train passed through Haig, B.C. Field Marshal Haig learned for the first time that a town along the transcontinental line of the Canadian Pacific Railway had been named after him.

The field marshal was sitting in his parlor compartment when a large red station bearing the name "Haig" hove into sight. When he leaned forward in his chair and looked at the name he was asked by a Canadian if he did not know that this town had been named after him several years ago. He said: No, it is the first I had heard of it, and he looked very pleased.

Countess Haig wrote two letters to their daughters in London to be sent back and posted at Haig as souvenirs.

In certain parts of England, the belief prevails that a holly bush planted near a house will protect it from lightning.

EARL HAIG JOINS JASPER TRAIL RIDERS

WHEN Field Marshal Earl Haig visited Jasper National Park and learned of the organization meeting of the Jasper Squadron, Trail Riders of the Canadian Rockies, during his visit, he expressed a wish not only to visit the encampment but also to join the organization as a charter member of the baby squadron. The Field Marshal and Countess Haig are shown here mounted, with a group of the Trail Riders around them and the tepees of the encampment behind them. Members of the Field Marshal's party,

all of whom had ridden many miles of mountain trails since their arrival in the Canadian Rockies, were also enrolled as charter members of the new organization, which is under the presidency of Major Fred Brewster, M.C., outfitter at Jasper Park Lodge.—C.N.R. Photos.

AROUND THE TOWN

Miss Marie Reimer left on Monday to spend her vacation at Vulcan.

Mrs. Studer and daughter Winnie returned on Sunday from a visit to Calgary.

Messrs. Watt and McGhee were visitors to Buffalo Lake over Sunday, bringing back with them Dorothy and Nelda Huget.

Messrs. T. Johnson, Bert Cressman, H. Hawkes, F. Osmond and I. Weber were among those at Sylvan lake on Sunday.

Instructions have been received by the local branch of the Union Bank to turn the whole of its business over to the Royal Bank on August 9.

Alex. Guy returned on Sunday night with his wife and family from a motor trip that extended over nearly two thousand miles, and during which he covered a considerable portion of both Alberta and Saskatchewan.

The sultry heat on Sunday drove large numbers of our residents to seek the "cool retreats." The little Red and Sylvan lake were prime favorites, whilst the less fortunate or the "too indolent" either sought the cool recesses of their own shady bowers, or hiked it to the butte.

The hot weather of the past week is maturing the grain rapidly, and the indications are that harvesting operations will commence fully two weeks earlier this year. L. Sanderman will cut his barley this week, and the next few days will see one or two fields of wheat getting the same treatment.

Installation of officers of the I. O. O. F. will be held on the evening of Thursday, August 13, and members of Didsbury Lodge are requested to be promptly on time. Brethren residing in the district are especially invited. The ceremony of installation will be conducted by District Deputy Davies of Calgary, who will be accompanied by other officers from the City lodges. After the installation, a dance will take place about ten o'clock to which the public are cordially invited. Lunch will be served at the interval.

The annual meeting of the Didsbury Berry Pickers' Union was held last Sunday four miles north of Innisfail. A very large turnout of members was present. The day was ideal and the berries were just in the pink and very plentiful. The strange part of this organization is that no one knows who belongs to the union, but all present seemed to be members. A number of those who apparently have not reached the highest stage of development by evolution took to the water and spent most of the afternoon therein with the trout and sucker line and others of the amphibious kind that inhabit these waters of the Red.

Don't Miss "Jealous Husbands" at the Opera House on Saturday.

Kendrick & Good STOCK BUSINESS
